

Customer information!

Dear customer,

Please be informed that our drives are manufactured according to the requirements of DIN EN 13659 and DIN EN 13561 regulations.

Our drives meet the requirements and are tested for 10.000 cycles meeting the highest class (class 3) indicated in DIN EN 13659.

Our drives are manufactured for roller shutter and awning applications.

Other applications, utilisation and modifications are not permitted in order to protect the safety of the users and others, since these actions can impair the system's safety, resulting in personal injuries and property damage. Becker Antriebe shall not accept liability for damages arising from such actions. Always observe the information in the instructions when operating or repairing the system. Becker-Antriebe shall not accept liability for damages resulting from incorrect usage.
